# DataTale CR-FD21 SD4.0x2/CFx1 Thunderbolt™ Card Reader
The Lighting Speed for Your Digital Data Storage

Designed for the SD cards and CF cards users, DataTale CR-FD21 Thunderbolt Card Reader provides two SD 4.0 slots and one CF card slot to transfer digital data simultaneously up to 800MB per second. DataTale CR-FD21 Thunderbolt™ Card Reader delivers a new level of performance to SD/CF cards and digital data storage users, and allows massive data move between thunderbolt-equipped host and digital camcorders or digital camera.

The USB card reader reads/writes data once one media, while the CR-FD21 can access three media at the same time. By employing the new Thunderbolt™ technology and SD4.0 card/CF card support, the DataTale CR-FD21 Card Reader becomes the perfect audio/video/movie/photos/data transfer unit with offloading of spanned clips support, using its two media card slots; and can be accessed at a maximum of 800MB per second, using two SD 4.0 cards and one CF Card simultaneously, like the sound of thunder!

The CR-FD21 Thunderbolt Card Reader is bus-powered.

The LED indicators display the data access process.   With its compact design, the CR-FD21 can be carried easily.

Features

- Connects via Thunderbolt™ ports, up to 10 Gbps data transfer rate
- Supports 2 x SD 4.0 card and 1 x CF card simultaneously, up to 800Mbps transfer rate
- Compatible with Time Machine (Apple) for backups and file protection
- Provides multiple media slots with increased speed and flexibility
- Monitors data transfer status via LED indicators
- Dissipates heat efficiently with aluminum housing
- Plug-n-play connection
